# Cyber Self-Audit

9ine

Enhance Your School's Cyber Resilience with Our Quick Self-Audit Cyber Risk Assessment

Thanks to data from hundreds of schools we've developed our exclusive 11-point Cyber Risk Assessment – a powerful free tool designed to empower your IT Team in evaluating your school's vulnerability to the most common cyber risks.

Transformative Insights, Empowered Defences

Comprehensive Cyber Analysis: Leverage our vast experience and meticulous analysis to uncover the precise cyber risks that put your school at greatest peril.

Actionable Recommendations: Gain instant access to targeted insights, allowing your leadership to prioritise and fortify your defences where they matter most.

Evidence-Based Approach: Utilise a data-driven assessment that provides an accurate snapshot of your school's cyber readiness and identifies potential weak points

> "9ine's Cyber Risk Assessment offers an unrivalled perspective on our school's vulnerabilities. It's a must-have tool for every IT Team!"
>
> **International School |** IT Director

Navigating the Assessment

11-Point Precision: Dive into a concise yet comprehensive assessment, covering 11 key areas where vulnerabilities often lurk.

Proactive Vulnerability Insights: Discover potential threats, from user identity management to network security and beyond.

Focus: Prioritise your resources where they matter most, mitigating the most common cyber risks and bolstering your cybersecurity defences.

Your Path to Cyber Resilience

Steer your school towards enhanced cyber resilience with the 9ine Cyber Self-Audit. Whether you're an IT professional aiming to fortify your school's defences or a school leader prioritising cyber readiness, this assessment is your compass.
