Empower Your School with the International Schools Risk Framework

The International Schools Risk Framework, developed in collaboration with the American International School of Budapest, ushers in a new era of risk management for international schools. The ISRF helps schools improve operational excellence and decision-making by providing a robust framework for identifying, assessing, managing, and mitigating risks.

Comprehensive Education Risk Management

360-Degree Risk Management: Seamlessly transition from traditional spreadsheet risk assessment to comprehensive risk management using the 9ine Governance platform.

Tailored to Your Needs: Customise our 160+ template risks across fifteen comprehensive risk categories to align with your school's unique context and requirements.

Actionable Insights: Empower school leaders to drive strategic decisions through evidence-based evaluation, ensuring risks are effectively managed and reported.

"Migrating our risk framework to the 9ine Governance platform has transformed how we manage and report risks to our Board. It's a game-changer for risk management!"

Brett Penny | Director, American International School of Budapest
