

INFORMATION PACK

Academy LMS

Virtual, on-demand Artificial Intelligence training and certification for teachers, Heads of Department or entire schools.

Why the Academy LMS?

Academy LMS enables schools to enrol individual staff members or entire groups in comprehensive training courses, modules, and assessments, featuring in-built quizzes and certificates. We only provide training on topics we have expertise in, with content created by professionals who work within schools.

Our focus on supporting schools with technology compliance topics such as AI, Privacy, Tech Operations, Cybersecurity, and Risk allows us to offer greater depth and tailored learning pathways to help your school stay safe, secure, and compliant. Given the ever-changing nature of areas such as AI, Privacy, and Cybersecurity, our courses are reviewed on a rolling three-month cycle to ensure their relevance. Our content creation process is designed for agility, enabling us to update and deploy the latest content within hours.

With differentiated course levels you can enrol staff in an Introductory course, and staff with a greater responsibility can be enrolled more advanced courses.

What's included

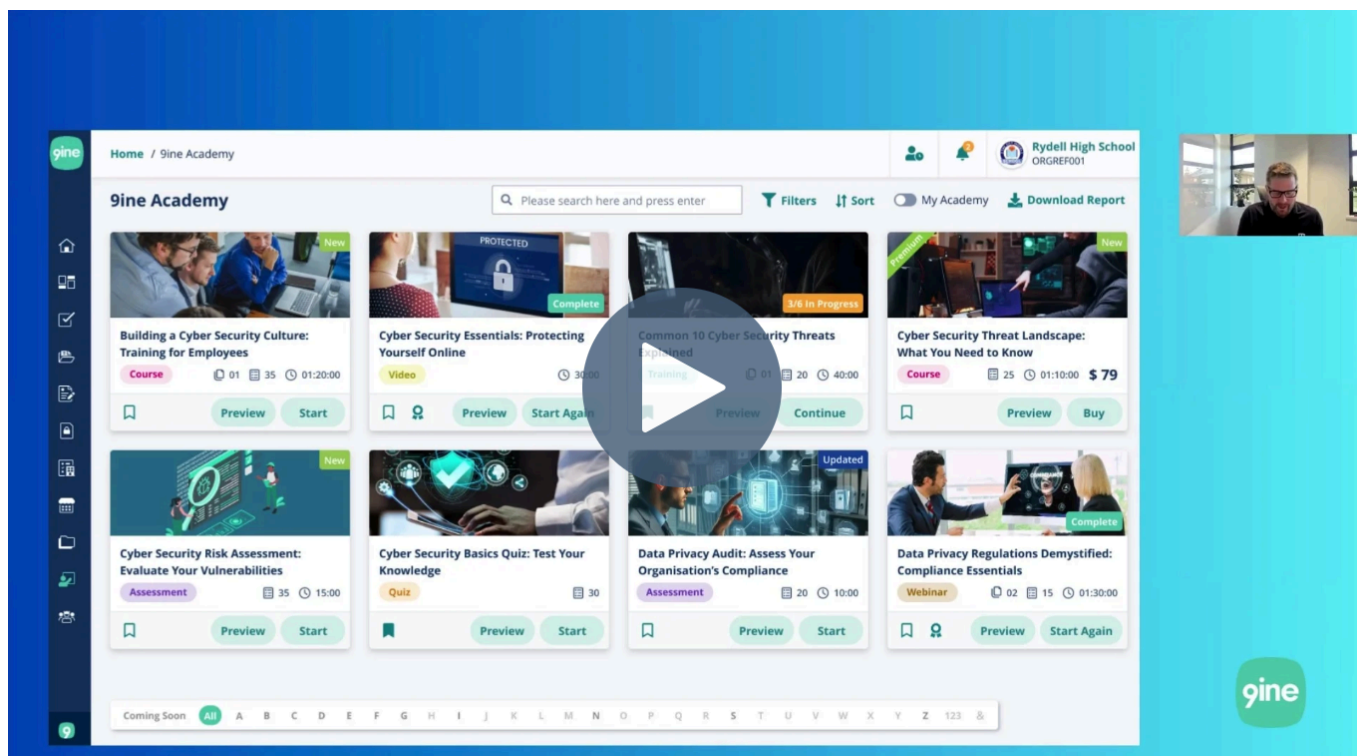

- ✓ Training courses
- ✓ Assessments and quizzes
- ✓ Certifications on completion
- ✓ Access to the 9ine Platform
- ✓ On-demand training videos

9ine's Academy LMS enables schools to

- ✓ Subscribe to learning pathways in AI, Privacy, Cyber, Tech Operations and Risk Management.
- ✓ Enrol individual staff members or entire groups.
- ✓ Streamline Requests: Manage requests for new apps with a built-in compliance vetting system.
- ✓ Featuring an introductory course to AI, along with Intermediate and Advanced courses for those staff with greater responsibility.
- ✓ Specialist courses for AI in Safeguarding, Child Protection and Technology.

Training pathways for your teachers and staff

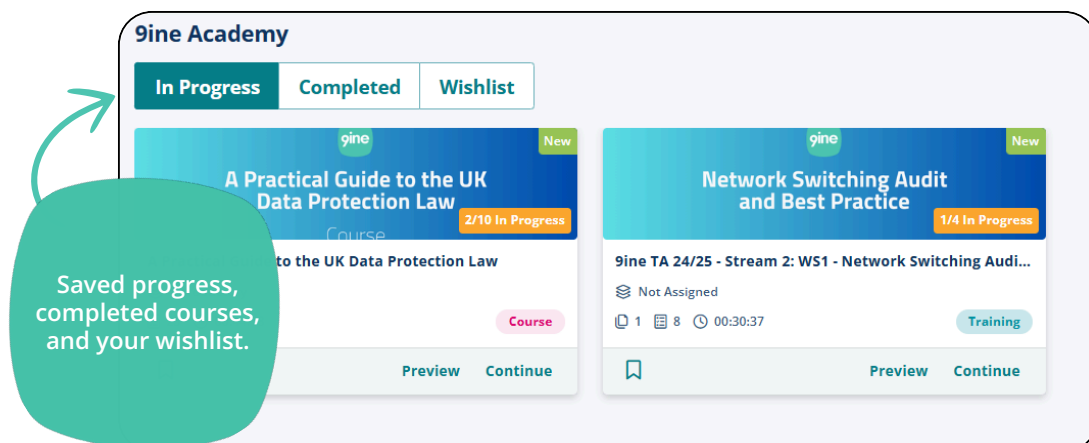

The screenshot displays the 9ine Academy LMS interface. The top navigation bar includes the 9ine logo, a search bar, and user information for Rydell High School (ORGREF001). The main content area features a grid of training modules, each with a thumbnail, title, type, duration, and a 'Preview' or 'Start' button. A large play button icon is overlaid on the center of the grid.

Module Title	Type	Duration	Status/Action
Building a Cyber Security Culture: Training for Employees	Course	01:20:00	Preview / Start
Cyber Security Essentials: Protecting Yourself Online	Video	30:00	Preview / Start Again
Common 10 Cyber Security Threats	Explained	01:20:00	Preview / Continue
Cyber Security Threat Landscape: What You Need to Know	Course	01:10:00	Preview / Buy (\$79)
Cyber Security Risk Assessment: Evaluate Your Vulnerabilities	Assessment	15:00	Preview / Start
Cyber Security Basics Quiz: Test Your Knowledge	Quiz	30	Preview / Start
Data Privacy Audit: Assess Your Organisation's Compliance	Assessment	10:00	Preview / Start
Data Privacy Regulations Demystified: Compliance Essentials	Webinar	01:30:00	Preview / Start Again

At the bottom, there is a 'Coming Soon' section and an alphabetical index (A-Z) for navigation.

Description

This training programme equips educational staff with foundational knowledge of UK Data Protection Law, specifically the GDPR, and its application in educational settings. Participants will gain insights into key concepts, such as personal data, data protection, and legal compliance tailored to school environments. By exploring practical scenarios and best practices for safeguarding data, this course supports the establishment of a privacy-conscious culture and compliance with legal standards for handling personal data.

For further details, please review the "Learning Objectives."

Learning Objectives

By the end of this training, participants will be able to:

- Explain the key concepts of data privacy, including the definition and importance of personal data.
- Identify and apply the principles of data protection law in educational settings.
- Recognise and manage the practical requirements of data protection, including:
 - Legal use of personal data in schools.
 - Strategies for safeguarding personal information.
 - Compliance with data protection principles like minimisation, accuracy, and confidentiality.
- Execute responsibilities in managing data breaches and supporting individual data rights, such as the right to be forgotten.
- Understand the roles of staff in enforcing data protection policies and compliance within their respective departments.

The course

The quiz

At the end of every course or video participants are quizzed on what they've just learned and have to score a passing mark to progress. Quizzes are multi-choice questions.

The certificate

After successfully completing the quiz, participants will receive a certificate for completing the training programme. Your school can then save these certificates as records for completing the necessary training.

AI courses at a glance

Courses				
	Beginner For all staff at schools that require a basic understanding of AI.	Intermediate For staff at schools that have responsibility for use cases for AI within their domain and the selection of EdTech vendor for these.	Advanced For school staff who have a leadership role, and staff who have a key role in the selection, implementation and validation of AI systems across the school.	Specialist For school staff who have unique, specialist roles and the responsibility for either decisions on AI which are school-wide or discipline-wide within a school e.g. AI Risk, Safeguarding, AI Cybersecurity etc.
